

3 JOY WILSON: I don't think you have to be
4 Native American to feel the spirit of the Native
5 American people that were here before us. I think
6 that we've all been brainwashed and conditioned into
7 believing that the bottom line is money. Sometime
8 soon we're going to realize that money isn't going to
9 save us. I think common sense is going to save us.

10 Common sense tells us that we don't have the
11 science to transport nuclear waste. It's just not
12 there. It's not responsible. It's harmful. It
13 should be left where it is and we should stop
14 producing it because we don't have the means to deal
15 with it. I think we should start answering to our
16 conscience instead of the bottom line money. Thank
17 you.
